ABOUT ADDASOUND

Originated from Denmark, a country that leads the world's sound technology, ADDASOUND is a global leading provider of voice solutions and unified communication devices.

ADDASOUND's products are designed and engineered in Denmark by a reputable team and now distributed all over the world. The professional team is enthusiastic and highly skilled in the industry. ADDASOUND always tries to provide the customers with the best experience of voice communication and guarantees the highest standard of reliability and quality.

Industry strength:

- Leading technology: advanced noise canceling technology guarantees high-standard sound quality and the best user experience.
- Superior sound quality: wideband audio processing and excellent electro-acoustic design ensures clear sound transmission.
- Simple design: classic Nordic style design perfectly combines outer simplicity with inner excellence.
- Superior compatibility: compatible with all major phone brands and softphone platforms.
- Delicate details: from products to service, ADDASOUND looks deep into every detail to meet your every need.

ADDASOUND has the products from wired headsets to wireless headsets.

These headsets and accessories are specially designed for CC&O (contact center and office), business and enterprise, speech recognition, unified communications and mobile communications.

They are deployed globally in all major verticals such as: healthcare, finance, insurance, education, government, transportation, energy and consumer.

ADDASOUND has a friendly channel-driven policy for distributors and resellers and strives to create a win-win culture with all global partners.

ADDASOUND welcomes the global partners to contact ADDASOUND and join the ADDASOUND distribution channel!

ADDASOUND GLOBAL PRESENCE

CONTACT CENTER AND OFFICE

Crystal 2731 & 2732

Hard-working staff in contact centers and offices nowadays have higher requirements of their headsets. In order to provide outstanding customer experience, ADDASOUND has developed a wide range of professional and cost-effective headsets for contact centers and offices.

ADDASOUND's headsets comprise advanced noise canceling and electro-acoustical technology and deliver crystal-clear sound wrapped in a sleek and stylish Nordic design.

ADDASOUND's headsets and solutions will always be your reliable working companions even in a very noisy environment.
